NUMBER 1—AUGUST 1949

	Page
Studies of survival of unicellular species. I. Variations in life expectancy of a Paramecium under laboratory conditions. R. R. SPENCER and M. B. MELROY	1
Studies of survival of unicellular species. II. Some principles involved in the survival of bacterial species. M. B. MELROY and R. R. SPENCER [Plate 1]	11
Differential growth of malignant and nonmalignant tissues in rats bearing hepatoma 31. Influence of dietary protein, riboflavin, and biotin. CARL VOEGTLIN and J. W. THOMPSON	29
Changes in a transplanted fibrosarcoma associated with ascorbic-acid deficiency. WILLIAM VAN B. ROBERTSON, A. J. DALTON, and W. E. HESTON [Plates 2–5]	53
The effect of ectopic autologous grafts of androgen-stimulated prostate upon the serum "acid" phosphatase of the dog. Roy Hertz, BENTON B. WESTFALL, MORRIS K. BARRETT, and WILLIAM W. TULLNER [Plates 6, 7]	61
Glass cloth as a substrate for tissue culture. DOUGLAS WARNER, CHARLOTTE HANAWALT, and FRITZ BISCHOFF [Plates 8–12]	67
Lactonase and C-acylase activity of hepatoma. ALTON MEISTER	75
A maternal influence on the growth rate of a transplantable tumor in hybrid mice. MORRIS K. BARRETT and WALTER C. MORGAN	81
The histamine content of some experimental tumors. SANFORD M. ROSENTHAL	89
Excretion of urinary coproporphyrins in patients with neoplastic diseases treated with methyl-bis(β-chloroethyl)amine hydrochloride (HN_2). HOWARD R. BIERMAN, LOUIS A. STRAIT, and MICHAEL K. HRENOFF	93
Chemical alteration of polysaccharide from *Serratia marcescens*. III. Reaction of polysaccharide with radioactive *p*-iodobenzene diazonium chloride and the use of the product in an experimental and clinical study. ARNOLD M. SELIGMAN and THEODORE SACK	105
Relationship between the hairless gene and susceptibility to induced pulmonary tumors in mice. W. E. HESTON and MARGARET K. DERINGER	119
Induction of pulmonary tumors in strain A mice with methyl-bis(β-chloroethyl) amine hydrochloride. W. E. HESTON	125
Effects of podophyllin on mouse skin. II. Consideration of some functional aspects. LESTER S. KING and EARL W. CAULDWELL [Plates 13–15]	131
Morbid anatomy, histopathology, and histopathogenesis of fore-stomach carcinoma in mice fed carcinogenic hydrocarbons in oil emulsions. HAROLD L. STEWART and EGON LORENZ [Plates 16–39]	147
The carcinogenic action of 9,10-dimethyl-1,2-benzanthracene on the skin and subcutaneous tissues of the mouse, rabbit, rat, and guinea pig. I. BERENBLUM [Plates 40–42]	167
Effect of penicillin on the development of mammary tumors in mice containing the milk agent. B. E. BENNISON	175
Observations on the effect of a folic-acid antagonist on transplantable lymphoid leukemias in mice. L. W. LAW, THELMA B. DUNN, PETER J. BOYLE, and J. H. MILLER [Plates 43,44]	179
The incidence of mammary tumors in mice of strain C3H and in descendants of fostered strain C. HOWARD B. ANDERVONT	193
Studies on the disappearance of the mammary-tumor agent in mice of strains C3H and C. HOWARD B. ANDERVONT	201
Abstracts	215
British-American exchange fellowships	221
Funds for research on leukemia; Cancer grants and fellowships	223

NUMBER 2—OCTOBER 1949

Page

Recent developments in the transparent-chamber technique as adapted to the mouse. GLENN H. ALGIRE and FRANCES Y. LEGALLAIS [Plates 45–52] 225

Development of adenocarcinoma of the breast in the Wistar rat following the gastric instillation of methylcholanthrene. HARRY SHAY, ERNEST A. AEGERTER, MARGOT GRUENSTEIN, and S. A. KOMAROW 255

Preliminary studies on the effectiveness of local irradiation in the induction of lymphoid tumors in mice. HENRY S. KAPLAN 267

The neoplastic transformation as a biological fractionation of related enzyme systems. JESSE P. GREENSTEIN, PAUL J. FODOR, and FLORENCE M. LEUTHARDT 271

Cardiovascular effects produced by stilbamidine in patients with multiple myeloma. HOWARD R. BIERMAN and MAURICE SOKOLOW [Plates 53–55] 279

Influence of perforation design on growth of tissue cells under perforated cellophane sheets in vitro. WILTON R. EARLE, VIRGINIA J. EVANS, MARY-FRANCES EDWARD, and EMILY DUCHESNE 291

Proceedings of the fourth conference on gastric cancer: 297

Address of welcome. JOHN R. HELLER 299

The use of fluorescein dyes in the diagnosis of malignancy with special reference to tumors of the central nervous system. T. B. HUBBARD and G. E. MOORE 303

The metabolism of the stomach. HORACE W. DAVENPORT 315

A histochemical study of urease in the human stomach with respect to acid secretion in ulcer and cancer. DAVID GLICK 321

Effect of intravenous glucose on gastric lactic acid in gastric carcinoma. BERNARD SHACTER, RALPH L. BYRON, JR., and MICHAEL B. SHIMKIN 331

The inhibition of gastric secretion in dogs by human gastric juice and gastric mucin. CHARLES N. BLACKBURN and CHARLES F. CODE 337

Histological study of the destruction and regeneration of the gastric mucous barrier following application of eugenol, preliminary report. FRANKLIN HOLLANDER and RHODA L. GOLDFISCHER [Plates 56, 57] 339

Preparation of emulsions and suspensions containing carcinogenic hydrocarbons. EGON LORENZ 358

Adenocarcinoma and other lesions of the glandular stomach of mice, following intramural injection of 20-methylcholanthrene. HAROLD L. STEWART, W. V. HARE, EGON LORENZ, and J. G. BENNETT 359

The occurrence of gastric lesions in the rat as a result of feeding tributyrin. W. D. SALMON and D. H. COPELAND [Plates 58–61] 361

Gastric cancer experimentally induced in insects by nerve severance. BERTA SCHARRER 375

The role of mucous cells in the production of gastric neoplasms. EDWARD L. HOWES [Plates 62–68] 377

Spontaneous lesion of stomach in strain I mice. HOWARD B. ANDERVONT 405

Lesions of the gastric mucosa in Strong strain NHO mice. HENRY S. KAPLAN [Plates 69–73] 407

Studies on gastric neoplasia in mice. The histogenesis and influence of some endocrine factors. FERN W. SMITH and LEONELL C. STRONG 423

Etiologic implications of the racial incidences of gastric cancer. PAUL E. STEINER 429

The Washington State Tumor Registry and its role in problems regarding gastric cancer and cancer research. H. DAVIS CHIPPS 439

An attempt to identify likely precursor groups of gastric cancer. DAVID STATE, DAVID GAVISER, THOMAS D. HUBBARD, JR., and OWEN WANGENSTEEN 443

Page

Photofluorography in the detection of gastric cancer. JOHN F. ROACH, ROBERT D. SLOAN, and RUSSELL H. MORGAN 455
Cytologic study of gastric aspirate for carcinoma cells. HENRY C. BRYANT, WILLIAM R. CRAIG, and H. MARVIN POLLARD 459
The cytohistological study of gastric washings. HOWARD L. RICHARDSON [Plates 74–77] 467
Use of the esophagoscope for obtaining biopsies of gastric tumors. CECIL O. PATTERSON 477
Acid-phosphatase activity in the gastric content of patients with carcinoma of the stomach. GEORGE W. CHANGUS and CHARLES E. DUNLAP 481
Further studies on metabolic changes in patients with gastric cancer. F. HOMBURGER, NELSON F. YOUNG, AURELIA POTOR, JACK B. TRUNNELL, BENEDICT J. DUFFY, JR., MARY L. PETERMANN, and C. P. RHOADS 489
Gastric acidity in cases of adenomatous gastric polyp. HORACE E. CROMER, JR., MANDRED W. COMFORT, HUGH R. BUTT, and JOSEPH BERKSON 497
The topography of chronic gastritis in cancer-bearing stomachs. ROBERT HEBBEL 505
Chronic atrophic gastritis: Identification of different varieties. ALVIN J. COX 523
Malignancy of gastric cancer. WILLIAM A. MEISSNER [Plates 78–80] 533
The silent interval in gastric cancer: A study of the time elapsing before reassertion of symptoms in patients with microscopic malignancy in the proximal line of excision and with lymph-node metastases. STANLEY R. FRIESEN 545

NUMBER 3—DECEMBER 1949

The effect of vascular occlusion on transplanted tumors. J. S. YOUNGNER and G. H. ALGIRE [Plates 81–84] 565
Relation of duration of a transplanted sarcoma to metastasis in the hamster. EDWARD D. CRABB [Plates 85, 86] 581
Induced pulmonary tumors in mice. IV. Analysis of dose response data with methylcholanthrene. MICHAEL B. SHIMKIN and JAMES N. MCCLELLAND 597
Remote-controlled radium emanation plant and automatic measuring apparatus for gold implants. JOHN E. ROSE and ROBERT W. SWAIN [Plates 87, 88] 605
Hematopoiesis in the spleen of tumor-bearing hamsters. MARGARET A. KELSALL [Plates 89–91] 625
Catecholase and catecholase-inhibitor activity of human blood sera. BERNARD SHACTER and MICHAEL B. SHIMKIN 637
Comparative stability of the agent of chicken tumor I in phosphate and borate buffers during incubation for 3 hours at 37° C. W. RAY BRYAN, MARY E. MAYER, JOHN B. MOLONEY, MARY ANN THOMAS, and MARGUERITE T. SELLS 647
Liver-glucuronidase activity of inbred mouse strains. ANDREW G. MORROW, EZRA M. GREENSPAN, and DOROTHY M. CARROLL 657
Preparation of p-dimethylaminoazobenzene containing isotopic carbon in the dimethylamino group. WILLIAM S. FONES and JULIUS WHITE 663
Cutaneous melanin production in mice following application of the carcinogen 5,9,10-trimethyl-1,2-benzanthracene. F. H. BURGOYNE, W. E. HESTON, J. L. HARTWELL, and HAROLD L. STEWART [Plates 92–98] 665
Effects of podophyllin on mouse skin. III. A study of epidermal fibrils. LESTER S. KING [Plates 99–102] 689
Eclampsia-like condition in pregnant rats injected with progesterone. ALEXANDER SYMEONIDIS [Plates 103–106] 711

Page

The antiproteolytic reaction, iodoacetate index, and least coagulable protein reactions in relation to malignant neoplasia: Correlation of tests. EUGENE E. CLIFFTON 719
Melanoblasts in the stroma of the parathyroid glands of strain C58 mice. THELMA B. DUNN [Plate 107] 725
The nature of radiation injury to amphibian cell nuclei. WILLIAM R. DURYEE [Plates 108–125] 735
Abstracts 797
Excerpta Medica 804
Announcement: Fifth International Cancer Congress 805

NUMBER 4—FEBRUARY 1950

The biotherapeutic action of *Trypanosoma cruzi* on tar carcinoma in mice. G. C. JEDELOO, G. O. E. LIGNAC, A. J. LIGTENBERG, and P. H. VAN THIEL 809
Inhibition of mammary-gland development and mammary-tumor formation in female C3H mice following ingestion of thiouracil. C. S. DUBNIK, H. P. MORRIS, and A. J. DALTON [Plate 126] 815
Effect of ultrasonic vibration on the formed elements of blood from normal and leukemic subjects. P. MORROW, H. R. BIERMAN, and R. JENKINS [Plate 127] 843
Mammary tumor-agent in the sperm of high-cancer-strain male mice. O. MUHLBOCK 861
Production of malignancy *in vitro*. IX. Description of cells at the fluid interface of the culture. W. R. EARLE, E. L. SCHILLING, and E. SHELTON [Plates 128–132] 865
Use of perforated cellophane substrate in slide preparation tissue cultures. E. L. SCHILLING, W. R. EARLE, and V. J. EVANS [Plates 133–134] 883
Note on the lack of progressive growth of metastatic mammary carcinoma transplanted subcutaneously into foreign strains of mice. R. T. PREHN 893
Response of mammary-tumor-agent-free strain dba female mice to percutaneous application of methylcholanthrene. H. B. ANDERVONT and T. B. DUNN [Plates 135–138] 895
Induction of hemangio-endotheliomas and sarcomas in mice with *o*-aminoazotoluene. H. B. ANDERVONT 927
Extension of cellophane substrate procedure to growth of *in vitro* cultures of large areas. W. R. EARLE, V. J. EVANS, and E. L. SCHILLING. [Plates 139–147] 943
Intracellular distribution of enzymes. VI. The distribution of succinoxidase and cytochrome oxidase activities in normal mouse liver and in mouse hepatoma. W. C. SCHNEIDER and G. H. HOGEBOOM 969
Intracellular distribution of enzymes. VII. The distribution of nucleic acids and adenosinetrophosphatase in normal mouse liver and mouse hepatoma. W. C. SCHNEIDER, G. H. HOGEBOOM, and H. E. ROSS 977
Intracellular distribution of enzymes. VIII. The distribution of diphosphopyridine nucleotide—cytochrome C reductase in normal mouse liver and mouse hepatoma. G. H. HOGEBOOM and W. C. SCHNEIDER 983
Observations on inbred mice exposed to DDT. B. E. BENNISON and F. K. MOSTOFI 989
Mucolytic enzyme systems. XII. Hyaluronidase in human and animal tumors, and further studies on the serum hyaluronidase inhibitor in human cancer. L. B. KIRILUK, A. J. KREMEN, and D. GLICK 993
Abstracts 1001
Announcement: National Research Council. Symposium of Chemical-Biological Coordination Center 1004

NUMBER 5—APRIL 1950

Page

The growth of normal plant tissue *in vitro* as effected by chemical carcinogens and plant growth substances. II. The cytology of the carrot-root tissue. MICHAEL LEVINE [Plates 148–158] 1005

Histopathology of estrogen-induced tumors in guinea pigs. ELI NADEL [Plates 159–165] 1043

Production of malignancy *in vitro*. X. Continued description of cells at the glass interface of the cultures. WILTON R. EARLE, EDWARD L. SCHILLING, and EMMA SHELTON. [Plates 166–176] 1067

Production of malignancy *in vitro*. XI. Further results from reinjection of *in vitro* cell strains into C_3H strain mice. WILTON R. EARLE, EMMA SHELTON, and EDWARD L. SCHILLING 1105

A comparative study of the morphology and glucuronidase activity in 44 gastrointestinal neoplasms. WILLIAM H. FISHMAN and ROBERT BIGELOW 1115

Inhibition of sea-urchin egg cleavage by a series of substituted carbamates. IVOR CORNMAN 1123

Factors in the development of spontaneous mammary gland tumors in agent-free strain C_3Hb mice. W. E. HESTON, MARGARET K. DERINGER, THELMA B. DUNN, and WAYNE D. LEVILLAIN [Plates 177, 178] 1139

Attempt to detect a mammary tumor-agent in strain C mice by X-radiation. HOWARD B. ANDERVONT and THELMA B. DUNN [Plates 179–182] 1157

Studies on fatty acid oxidation by normal and neoplastic liver. CARL G. BAKER and ALTON MEISTER 1191

Comparative studies of liver glucuronidase activity in inbred mice. ANDREW G. MORROW, EZRA M. GREENSPAN, and DOROTHY M. CARROLL 1199

NUMBER 6—JUNE 1950

Studies of the carcinogenic action in the rat of 2-nitro, 2-amino, 2-acetylamino, and 2-diacetylaminofluorene after ingestion and after painting. HAROLD P. MORRIS, CELIA S. DUBNIK, and JAMES M. JOHNSON 1201

Studies on the effects *in vitro* of X radiation on the biological activity of the agent of chicken tumor I (Rous Sarcoma). W. RAY BRYAN, EGON LORENZ, and JOHN B. MOLONEY 1215

Formation of tyrosine crystals from leukocytes and various normal and pathological tissues by means of a synthetic detergent. WILLIAM W. AYRES [Plates 183–186] 1239

Note on the influence of the number of litters upon the incidence of mammary tumors in mice. O. MUHLBOCK 1259

Lactic dehydrogenase activity of certain tumors and normal tissues. ALTON MEISTER 1263

Damage induced in Sarcoma 37 with podophyllin, podophyllotoxin, alpha-peltatin, beta-peltatin, and quercetin. J. LEITER, V. DOWNING, J. L. HARTWELL, and M. J. SHEAR [Plates 187, 188] 1273

Effect of alpha-peltatin, beta-peltatin, and podophyllotoxin on lymphomas and other transplanted tumors. EZRA M. GREENSPAN, J. LEITER, and M. J. SHEAR [Plates 189–197] 1295

Proceedings of The Histochemical Society 1335

Index of authors [Volume 10] 1383

Index of subjects [Volume 10] 1389
